RE: ABATEMENT MANAGEMENT PLAN NOTIFICATION

Dear Parents & Guardians:

The Bremen District 228 abatement management plan has been designed to aid in the implementation of an asbestos control program. It elaborates on the inspection report, addressing friable and non-friable asbestos-containing building material (ACBM) and friable and non-friable suspected ACBM, which has been assumed to be asbestos-containing material. The plan provides recommended short- and long-term actions to be taken by the school to protect building occupants. These recommendations are based on the hazard assessments of each homogeneous sample area and the school's financial resources.

District 228 is very proud of our facilities. The Board of Education has approved the spending of close to a million dollars over the last several years to address abatement issues and **insure the safety for all.**

Each high school's abatement management plan is available for review by contacting the district office at 708/389-1175, ext. 2008.

Sincerely,

David Corbin

David Corbin,
Director of Educational Support Services
