GENERAL SCHOOL PROCEDURES

REGISTRATION

Students transferring from other schools and/or re-entering students must begin the enrollment process in the main office by completing the district residency and guardianship verification procedures.

RESIDENCY

Any individual of high school age who wishes to enroll in a district school must abide by the rules regarding residency stated in Section 10-20.12b of the Illinois School Code. Pupils must reside with a natural or adoptive parent who has been granted "legal custody" of the pupil. "Legal custody" must have been conferred by order of a court of competent jurisdiction upon the adoptive parent or guardian with whom the pupil resides for reasons other than to have access to the educational programs of the district. Only resident pupils of the school district may attend district schools without payment of tuition required to be charged as stated in Section 10-20.12a.

If a school board determines that a pupil who is attending school in the district on a tuition free basis is a nonresident of the district for whom tuition is required to be charged under Section 10-20.12a, the board shall notify the person who enrolled the pupil regarding the nonresident pupil's attendance in the district's school. The person who enrolled the student in violation of the residency regulations will be held legally responsible for the payment of the tuition fee.

A person, who knowingly or willfully presents or assists another person to present to a school district any false information regarding the residency of a pupil for the purpose of enabling that pupil to attend school in the district without payment of a nonresident tuition charge, shall be guilty of a Class C misdemeanor. The district will prosecute these individuals.

These rules are enforced to protect district taxpayers. Please call your school with any questions.

FEES

Textbooks used by the students are offered on a rental basis. The registration fee also includes physical education locks, towels, ID cards, and the student newspaper. All fees are payable at registration prior to the opening of school. During the school year fees can be paid in the main office at each school. The district participates in the free loan of textbooks for families who qualify. Since books are issued on a rental basis, it is advisable to use them carefully and refrain from writing in them. A fine is assessed for damage to or loss of books and locks.

In courses requiring supplemental books/workbooks to be issued to individual students as their own personal property, a fee will be assessed to reimburse the district for the cost of the books/workbooks. In courses requiring material to be issued to individual students for their personal use, a fee may be assessed to reimburse the district for the cost of such material. The possibility of this additional fee should not hinder students from taking a course of particular interest to them. The cost of any projects over and above this basic requirement will be at the student's expense. Students and parents alike should be aware of this possible fee assessment. If there is a question about additional fees in a given course, please check with the main office.

The state of Illinois reimburses the school district for part of the bus transportation costs for students who live more than 1.5 miles from school. Those who live less than 1.5 miles and desire bus transportation will pay a \$150.00 fee for this service.

FINES AND OUTSTANDING FEES

All fines and fees are to be paid through the main office of each school.

TRANSFER AND WITHDRAWAL

When a student finds it necessary to drop or transfer from a school in Bremen Community High School District 228, the following steps should be taken:

1. The student should first notify the office of his intentions. He/she will be given a District Withdrawal Form which he/she will have signed by his parent or guardian only and returned to the main office. The signature will be verified by presenting a valid form of identification.
2. Upon receipt of the withdrawal form, the student will be given a Permit to Leave School form. This form along with all books and school materials must be taken to individual teachers for their signature. The form must also be signed by appropriate personnel in the attendance office, guidance office, nurse's office, and IMC and returned to the main office.
3. When a student transfers to another school, he/she should take the latest copy of his report card, an ISBE Student in Good Standing Transfer form, medical records and if appropriate, any IEP records to the new school. The receiving school will require a transcript of the student's grades and other pertinent information, and this will be sent directly to the receiving school. Official transcripts will only be issued when all fines and fees are paid.

Students who withdraw in lieu of expulsion will not participate in school activities.

EQUAL OPPORTUNITY/SEX EQUITY GUIDELINES

District 228 embraces the overall policy of hiring, training, promoting, and releasing personnel without any form of discrimination. The plan shall be carried out in terms of relations with students, employees, parents, citizens, and those with whom the school conducts business. Equal opportunities and equal treatment will be extended to all, and there will be no preferential treatment to persons on the basis of race, color, national or ethnic origin, age, gender, creed, disability, political affiliation or beliefs. District 228 offers vocational education programs/courses without regard to race, color, national origin, gender, age, or disability. Questions in reference to educational opportunities for persons challenged by disabilities may be directed to the Section 504 Coordinator (see page 2). All other equity issues should be directed to the principals, who act as Title IX and Title VI Coordinators (see page 2).

District 228 strives to create and maintain a work/learning environment free from harassment of any nature, including sexual harassment. In implementing this policy, the district recognizes that harassment is a form of discrimination and as such is subject to state and federal regulations.

STUDENT/PARENT GRIEVANCE PROCEDURE

Any student or parent claiming a legitimate grievance may appeal for redress by following the procedure below:

1. The student or parent should discuss the matter with the person directly responsible for the grievance within ten school days.
2. If no satisfaction is attained, the matter should be directed to the appropriate area listed in the Information Directory in this handbook within five school days.
3. If step one and two provide no satisfaction, the building principal or his designee should be contacted within five school days.

Persons appealing grievances should remember that in steps two and three, the person may be unaware of the situation at issue. Courtesy should be observed by all parties.

VISITORS

All visitors must enter through the visitors' entrance and sign the register provided to obtain a visitor's pass. Proper identification is required to enter the building. Passes will not be issued to students from other schools. Students are not permitted to bring visitors into the buildings during the school day without the approval of the appropriate administrator at least three days in advance. Visitors are not permitted to use District 228 transportation services. Persons violating this regulation will be requested to leave the building immediately and provide their own transportation. Persons entering the high schools without passes or proper authorization will be considered trespassers and will be subject to police action.

ANNOUNCEMENTS

Each day announcements are communicated to students and staff. Occasionally, student organizations will have information that they would like to have conveyed to the student body. These announcements must be put on a daily announcement form and signed by a faculty sponsor or teacher.

SALES BY STUDENTS

Students are forbidden to sell candy or other items without authorization from a recognized club or organization and approval from the activity director.

POSTERS AND BULLETINS

To insure neatness and proper care of school property, no posters or bulletins may be placed in the hallways unless they are approved by the activity director. These items may be mounted at designated areas only, using masking tape. Any outside organization that is not a sanctioned school club or activity must submit posters, bulletins or other literature to the principal/designee.

LOCKERS

During registration, each student will be assigned to a hall locker. Students are expected to keep their books, coats and other personal items in the locker to which they are assigned. Students are not permitted to trade lockers or keep their belongings in any locker not assigned to them. It is each student's responsibility to see that his locker is kept neat and clean throughout the school year. Periodic locker checks will be made. Lockers are school property and may be opened by school officials. Only locks provided by the school may be used. Personal padlocks may be cut off by school officials. Broken or damaged locks should be reported to the main office. P.E. locker assignments and locks are handled by P.E. teachers through the Athletic Office. Students who deface lockers will be subject to disciplinary action and/or a fine. Personal belongings are not covered by school insurance. Valuables should be left at home. Lockers should be checked for security after each opening. ***STUDENTS SHOULD NOT DIVULGE THEIR LOCKER COMBINATIONS TO OTHER STUDENTS.***

SCHOOL CLOSING

In the event that it becomes necessary to close school due to weather or other emergency conditions, District 228 will notify the city news bureau, which will notify the radio stations listed below. News of school closings will then be broadcast by these radio stations: WMAQ 670, WGN 720, WCGO 1600, WBBM 780, AND WBBM-FM 960 or log onto our website at www.bhsd228.com. In addition, efforts will be made to contact students and families through a global phone message. Please be certain to update your contact information as needed.

SAFETY AND EMERGENCY PROCEDURES

Periodically, fire drills, disaster drills and bus evacuation drills will be scheduled. These drills are important and all instructions should be followed carefully so students will know what to do in case of an actual emergency. In case of a fire drill, students should follow the directions listed on the fire exit signs posted in each classroom. All other drills will be explained on the P.A. system or by the teacher. The district also has a written plan to follow in the event that the staff and students need to respond to a crisis situation or a catastrophic event.

SECURITY CAMERAS

To increase security on each campus, the district has installed video cameras to survey the parking lots and other campus areas. The purpose of using these cameras is to provide improved supervision of the daily activities on the grounds of each school campus and to provide a safer environment for students, staff and visitors on each campus.

ADDRESS CHANGES

When a student changes telephone number or residence, the main office should be contacted immediately. Any change of address must be verified by appropriate documentation. These changes may be handled during regular school hours.

WORK PERMITS

The State of Illinois has set up the following requirements for minors wishing to work. Before being issued a work permit, a student over 16 years of age must present (1) a statement from his employer stating the type of work for which he is employed; (2) a copy of his birth certificate; and (3) a statement from his parents giving permission to work. A student under 16 years of age must present (1) a statement from his employer stating the type of work and hours for which he is employed; (2) a copy of his birth certificate; (3) a statement from a physician stating he is physically able to work; and (4) a statement from his parents granting permission to work, before he will be issued a work permit. These documents should be brought by the student to the school's main office where work permits are issued. No student under the age of 14 may receive a work permit, except caddies.

HOLIDAY TRIPS

During school breaks throughout the year, individual faculty members may offer holiday trips. These are strictly private ventures by faculty members. They are not under the jurisdiction of the District 228 schools.

TELEPHONE CALLS AND EMERGENCY MESSAGES

Since students must be in class in order to learn most effectively, attendance office personnel will not deliver phone messages for students during class time. Students may not use cell phones to make or receive calls during regular school hours. Only emergency medical messages will be delivered to students if called in by a parent or legal guardian. Students will not be taken out of class to come to the phone for a message.

PASSES WILL NOT BE ISSUED TO USE THE TELEPHONE EXCEPT BY THE ATTENDANCE OFFICE IN AN EMERGENCY SITUATION.

STUDENTS, PUBLICITY, AND MEDIA RELATIONS

District 228 students may, on occasion, be photographed, videotaped, and/or interviewed by District 228 staff members, other students, District 228 parents or other individuals. The names, work, photographs, videos, and/or interviews of students may be used in various publications including, but not limited to, yearbooks, newspapers and newsletters, District 228 publications, presentations at professional conferences and Board of Education meetings, district television productions, and outside publications and productions, including newspapers, magazines, television and websites.

PARENTAL PERMISSION

1. District/School Use

The district/school may use the name, work, photograph, videotape or interview of a student in district publications. This includes permission to use a child's recognizable photograph, videotape, name or interview on the District 228 website. Parents may elect to prohibit use of their child's name, work, photograph, videotaped image, and interview in District 228 publications and productions, by written request to the building principal.

2. Out of District

District 228 limits access to school buildings and grounds by outside reporters and photographers, and other out-of-district news media. Under appropriate circumstances, as determined by a building administrator, media representatives may interview, photograph, and/or videotape students. In order for District 228 to grant permission to outside individuals to photograph, videotape, and/or interview a student or to use a student's work, one of the student's parents or guardians must have signed the general consent form, which is valid for one school year. This consent form is included in the Parent Handbook Receipt Form that all parents must return. Parents may elect to prohibit use of their child's name, work, photograph, videotaped image, schoolwork, and interview in outside publications and productions. Please be advised that District 228 does not control the news media or other entities that may publish a photograph, videotaped image, or interview of a student in school buildings or on school grounds. (District 228 will not grant specific permission to use a student's photograph, videotape, name, work, or interview on a Web site. Parents/guardians must understand, however, that some newspapers and magazines may include information from their publications on their own websites.)

NOTICE OF PESTICIDE AND LAWN CARE PRODUCTS APPLICATION

Any parent or guardian of a student may request to receive a written notice before any pesticide or lawn care product other than an antimicrobial agent such as a disinfectant, or an insecticide or rodenticide bait, is used in a school building or on school grounds. Parents or guardians requesting written notice must submit such a request in writing to the Facilities Manager, 15233 Pulaski Road, Midlothian, IL 60445. Notice will be given at least two business days in advance. Notice may be given to the individual person who requests it or to all parents and guardians through newsletters, bulletins, calendars or some other general correspondence.

STUDENT SERVICES – PUPIL PERSONNEL SERVICES (PPS)

COUNSELORS

Each student is placed with a counselor who will continue to serve the student until graduation. This makes it possible for each student to have a close, continuing relationship with his/her counselor. The counselors are available to work with students and parents to address educational, vocational, behavioral, and personal issues. In addition to providing day-to-day counseling services, counselors are responsible for delivering Developmental Guidance, Freshman Learning Center, and College and Career Center lessons to students throughout the school year. Counselors also make Parent Programming presentations during the fall and spring parent-teacher conferences.

SCHOOL PSYCHOLOGIST

The psychologist is responsible for diagnostic testing and evaluation for appropriate academic placement of students referred for special services. The psychologist also serves as a consultant to the student services staff and is involved in Response to Intervention Processes.

SOCIAL WORKER

The social worker teams with other student services staff members to help solve a variety of concerns. Among the issues social workers address are family problems, social and emotional adjustments, referral to other social agencies, and crisis intervention. The social worker can be contacted through the student services office.

SPEECH THERAPIST

The speech therapist screens students to identify those who need therapy for speech disorders. Parents are notified when speech therapy is recommended for their child.

SCHOOL NURSE

The school nurse is available on a full-time basis to assist students with their health problems. If students have questions concerning their health, they should make arrangements to see the nurse. However, the student should remember that there are appropriate times to see the nurse and certain procedures to follow.

DEANS

The deans have dual responsibilities, attendance and discipline while supporting students' social-emotional development. Each dean is responsible for all students within their assigned segment of the student population. However, any dean may discipline any student for infractions of the school rules. A Dean will monitor attendance and discipline issues in order to implement appropriate interventions with students. Students with severe behavior and attendance problems will be referred to the dean by teachers, counselors or administrators. The referral is discussed with the student, and the evaluation and disposition are made by the dean utilizing all pertinent information

SPECIAL EDUCATION COORDINATOR

The Special Education Department is purposed to meet the needs of students identified as eligible for special education services. While the general nature and content of the curriculum is designed to conform with the graduation requirements of Bremen District 228, the specific levels of instruction, materials, and strategies are selected to meet the individual learner's needs, consistent with his/her Individualized Education Plan (IEP). Whenever appropriate to the learner's needs, he/she is enrolled in general education rather than special education courses. During the Junior and Senior year, considerable emphasis is placed upon developing an appropriate, post-secondary plan for each special education student. The special education program provides a wide range of related services to support the learner (e.g., speech language, occupational and/or physical therapy, social work, psychological services, counseling and health services). Innovative approaches are incorporated in a structured, positive environment to support each student in meeting his or her Individual Education Plan (IEP) goals and objectives. District 228 provides a full continuum of services ranging from consultation to placement in residential settings.

GENERAL INFORMATION

The school year consists of two semesters. . In addition, there are credit recovery and summer school programs. A credit is earned by the satisfactory completion of two semesters in a course which meets daily for one period and requires outside study. A prerequisite is a course(s) and/or other criteria which must be completed before certain other courses may be taken.

PUPIL LOAD

The general rules for course selection are as follows:

1. Students must register for five courses plus physical education for a total of six courses and must be in attendance for a minimum of 300 minutes, excluding lunch. (Exception: 5th or 6th year seniors may take a reduced course load to meet graduation requirements).
2. Students must have a "C" average (3.0 GPA) for a seventh course request in addition to parent permission. Participation in band and chorus will not be limited by grade point average.
3. Once courses are selected, these courses will not be changed unless the course is inappropriate for the student. After the first two weeks, any withdrawal requires the authorization of the principal. Course changes will not be made to accommodate choice of teacher or to allow early dismissals, which are not required by career cooperative programs.
4. To achieve sophomore standing, a student must have earned six credits; a junior must have earned 12 credits (this does not include the credit earned for attending Summer Academy); and a senior must have earned 18 credits. As of August 8, 2004, Illinois requires all students to take a college and career readiness test in order to graduate from high school. For purposes of the SAT, a junior is identified as having earned 12 credits prior to the first day of the student's third year of high school. If a student does not meet the credit benchmark, he or she will take the SAT the following school year. As of August 2016, Illinois requires all students to take the SAT in order to graduate from high school.
5. For some courses, like advanced levels of mathematics, science and world languages, industrial technology, fine arts, family and consumer science and English, enrollment in one of our four high schools may be insufficient to offer the course. In order to allow students to take this course, students from two, three or even four schools may be combined to form a section. Often this course is offered as a first period course at 7:00 a.m. or an eighth period course at 2:00 p.m. to allow maximum enrollment. Your counselor will tell you if you are enrolled in such a course. Transportation will NOT be provided for district courses running at 2:00 pm.
6. Students may take one elective per semester as pass/grade. Core courses, which are identified as English (excluding electives), math, science (excluding electives), and social studies (excluding electives), honors courses, and A.P. courses must be taken for a letter grade. Students must receive an A, B or C for the pass option; any grade lower than a C- will become a grade. Performing music and physical education may be taken as pass/grade in addition to the one elective per semester. Students should meet with their counselors to obtain a list of approved elective courses and a Pass/Grade form. The Pass/Grade form must be completed within the first two weeks of school. Taking a course Pass/Grade in an NCAA core course will eliminate that course from the GPA calculations to satisfy NCAA core requirements

SPECIAL EDUCATION SERVICES

If a parent is concerned that a child may need special education services, the parent should contact the Assistant Principal for Student Services in the PPS office.

ADVANCED PLACEMENT®

Students who have done well academically should consider enrolling in Advanced Placement®. These courses are college-level courses and give students a head start on their college years. The district expects that participation in an Advanced Placement® course, which includes the end of the year College Board Exam, will benefit students as they prepare for post-secondary studies. In addition, students who take the Advanced Placement® Examinations may receive college credit while in high school. The Advanced Placement® Examination fees (approximately \$94.00) will be collected at the time of registration.

WEIGHTED GRADES

Advanced Placement® and honors courses receive a higher number of grade points than those subjects classified as regular or essential. Beginning with the class of 2014 and all subsequent classes to follow, any student who does not take the Advanced Placement® exam at the conclusion of his/her coursework will NOT receive the AP weighted credit for that course. Instead, the student will receive the weight equivalent to an honors course. In calculating rank, an "A" in an Advanced Placement course will be weighted as 6.4 points; honors courses will be 6 points; regular courses will be 5 points; and those classified as essential will be awarded 4 points. Class rank will be calculated at the end of each semester. In each course description, the level and weight of the grade is listed in the "Credit" section. The district encourages eligible students to take additional courses, but in student comparisons, additional courses may affect the overall student GPA. Senior awards are based on seventh semester ranking.

REPORT CARDS

Midterm and final grades are available on our website through the Parent/Guardian Portal. A parent or guardian may request report cards to be mailed to their home address. These grades represent a progress report and parents can expect the information approximately ten days to two weeks after the end of each grade period. When requesting a copy of the report card to be mailed, the request should be made at least two weeks before the end of the grading period. Refer to the calendar in the front of this book for grade period dates.

Report cards reflect different types of important information, including grade point average (GPA), class rank and attendance records. Class rank and GPA are figured on semester report cards only. If you have any questions concerning report cards, please call the counselor.

DISTRICT 228 USES THE FOLLOWING GRADING SYSTEM

A	EXCELLENT	P	PASSED*
B	GOOD	F	FAILURE*
C	AVERAGE	I	INCOMPLETE
D	POOR	W	WITHDRAWN
E	FAILURE	W/F	WITHDRAWN/FAILING

*Used for Pass/Grade only – A student must earn an A, B or C grade to receive a “Pass.” A student earning less than a C will receive the letter grade.

HONOR ROLL

Honor rolls will be announced following the completion of each nine-week grading period. Honor roll is NOT based on weighted grades. This allows students from all ability groupings to attain honor roll standing when they achieve the highest grade possible at their level. The pass/grade option will affect honor roll status if a student receives a grade of “D”, “E” or an “F”. Only students carrying six or more credit courses as full time students will be considered for the honor roll. The honor roll is divided into three categories:

HONORS WITH DISTINCTION	4.0
HIGH HONORS	3.99 TO 3.5
HONORS	3.45 TO 3.0

The honor roll will be figured on 4 point (A=4, B=3, C=2, D=1, E=0) grade point average, and students cannot be placed on the honor roll if they receive a “D”, an “E”, or an “F”. Honor roll status is calculated by using grades from the first semester and the second semester.

PARENT-TEACHER CONFERENCES

Parents should feel free to contact teachers by voicemail or e-mail at www.bhsd228.com if they have concerns about a student's progress. If a conference is necessary parents should contact the student's counselor. Conferences will generally be held before or after school.

TRANSCRIPTS

Copies of transcripts with all-important information about a student's school career are available in the PPS office. Copies are provided free of charge to current students upon the receipt of a signed records release form, also available in the PPS office.

GRADUATION REQUIREMENTS

It is important for any student to understand and visualize a path to success. The ultimate goal for any student at Bremen High School District 228 is to be college and career ready when you leave us. To that end, District 228 has two sets of graduation requirements. The Regular Curriculum fulfills all of the State graduation requirements and successful completion of this curriculum leads to a regular diploma.

If your goal is to be college and career ready, then you should consider the Challenge Curriculum. Students who meet the criteria identified below will not only receive a regular diploma, but he/she will also be identified as a Distinguished Scholar or College and Career Ready.

In addition to meeting the requirements of either the Regular or Challenge Curriculum, a student must take the SAT examination as a condition for graduation as stipulated by the Illinois State Board of Education.

To participate in commencement exercises, a student must have earned the total credits noted below and have met all graduation requirements.

Effective with the class of 2021 each student must successfully complete the following courses to graduate from high school:

Regular Curriculum

² Students enrolled for a fifth or sixth school year may enroll in only the courses he/she needs to meet graduation requirements.

EARLY GRADUATION

Students requesting early graduation (seventh semester seniors) or juniors requesting graduation after three years must submit a letter signed by both the student and his parents to the Principal. The student must submit this letter by December 1. In addition, the student must schedule a conference with his counselor. No action on the request will be taken until after the conference is held with the counselor. All students interested in early graduation must consult with their counselor early in the year of graduation.

PHYSICAL EDUCATION CREDIT

Students will be required to pass four years of physical education:

1. If a transfer student comes from a school where physical education was not required or available, said student will not be required to make up the time missed.
2. If a student fails physical education he will be required to make up the credit required.
3. A student may not take two periods of physical education in any one semester unless it is during the senior year and the credit is needed for graduation. **Requests may be denied if the class size exceeds recommendations.**
4. Students will not automatically be excused from physical education for medical reasons. Students having medical restrictions will be required to secure a note from a physician with specific limitations and the actual length of time. If the medical excuse is for less than a full semester, the student will work through his teacher and complete written work as assigned. Students excused for a full semester or full year will have the requirement waived for that semester or year.
5. Freshman and sophomore students, on an individual basis, may be excused from physical education for first semester only if the student is enrolled in Marching Band (Beginning Band, Intermediate Band, or Concert Band). During the second semester, the student must return to physical education. The students must also meet all eligibility requirements contained on the form entitled "Request for Academic/Marching Band/Athletic Exemption from Physical Education."
6. Junior and senior students, on an individual basis, may be excused from physical education by enrolling in a semester or full year course for the following reasons:
 - a. The student needs to enroll in an extra class which is an entrance requirement for a college/trade school/other institution he/she wishes to attend.
 - b. When participating in inter-scholastic athletics, a student may be excused (one sport – semester course; two or more sports-full year course).
 - c. When participating in Marching Band, a student may be excused for the school year if enrolled in Concert Band.
 - d. The student needs to take a required course which he/she previously failed to complete or just transferred into the district and needs the additional course for graduation. The student must also meet all eligibility requirements contained on the form entitled "Request for Academic/Marching Band/Athletic Exemption from Physical Education."
7. Eleventh and twelfth grade students may request to be excused from engaging in physical education for the above reasons by filling out a Physical Education Exemption Request form. This request form can be acquired in the PPS office of your school.

PHYSICAL EDUCATION UNIFORM PROCEDURE

All students enrolled in active physical education class will be required to dress in a proper school physical education uniform. Failure to dress in an appropriate, required uniform will result in a daily deduction. Continued non-dress practices may result in future deductions, disciplinary consequences and parent contact.

PHYSICAL EDUCATION MEDICAL DAYS

A written request from a parent to the physical education teacher will excuse a student from active participation because of illness for a maximum of two (2) days during a nine week grading period. Additional medical days will require a doctor's written statement, containing specific limitations and the actual length of restricted time, presented to the school nurse. Medical statements not indicating a specific length of time or indicating "until further notice" will expire in 30 days. At that time, the student must renew the physician's written excuse or obtain a medical release to return to active participation. Insufficient medical documentation will result in unexcused absences. All doctors' statements are required at the onset of the medical restriction. Students must make up work for all days missed due to excused absence or medical.

DRIVER EDUCATION PROGRAM

The District provides a two-phase program in driver education which consists of the following:

1. 30 hours of classroom instruction; and
2. 6 hours of behind-the-wheel instruction with a certified instructor. Included in the behind-the-wheel phase is 6 hours of observation. Students are able to complete both the driving and observation requirements during the District's driving program.

Parents are responsible for a minimum of 50 hours of supervised driving (10 of which must be at night) with their son/daughter. These hours must be recorded on a document and submitted at the Department of Motor Vehicles (DMV) when the student obtains his/her license. Students must successfully complete all course requirements before applying for his/her license.

The District recognizes that some students may already have a driver's license. Because traffic/driving accidents are highest among new drivers, we strongly recommend that students remain in Fitness and Safety for additional instructional, driving techniques and new learning pertaining to first aid concepts (CPR and AED training). A sophomore student can exempt out of the driver's education portion of Fitness and Safety if the student can provide documentation that he or she has completed an approved Graduated Licensing Program at a local driving school. A student must show documentation of having their State of Illinois learner's permit. The student must inform the PPS Office/Counselor no later than two weeks prior to the beginning of 1st or 2nd semester. The student will then be moved to an alternate sophomore physical education course: Athletic Development, Leadership Training, Lifetime Fitness Activities 2 or Team Sports (Sophomore students cannot take the same PE course twice for the duration of the classroom portion of Driver's Education, approximately nine weeks.) All students will receive a driver education workbook. The replacement fee for a lost workbook is \$16.

Note: The State of Illinois mandates students pass 8 credits in the previous two semesters in order to be eligible to enroll in the driver education instruction (behind-the-wheel).

STUDENT TEST SCORES AND RECORDS

All incoming freshmen will be given achievement tests before placement in classes. The meaning of the test scores, in relation to the school curricula, is then discussed by a counselor, the student, and the parents. With this realistic approach, a satisfactory plan for a four-year course of study may be reached. As the student progresses in high school, more information and data are collected and added to his personal record which is kept in his counselor's confidential file in the PPS office. During the student's high school years, his cumulative record is used by the counselor with the student, the parents, or his teachers. The information in this folder then becomes the basis for recommendations and other application data for admission to college, training school, or employment.

STUDENT RECORDS REVIEW

In accordance with the provisions of the Illinois School Student Records Act (ISSRA), granting to each particular parent of a student (if a student is age 18 or older, all rights herein apply to the student and not to his parents) in the school district certain rights with regard to the records of students maintained by the school district, each parent is advised as follows:

1. Directory information is often made public by the school district in its normal procedures. Any parent who wishes such information not to be made public shall, within ten (10) days of the start of school, file a written request with the principal stating that any or all of the following may not be released without their consent, including the student's name, address, gender, parent or guardian's name, address, and telephone number, student's birth date and place, grade level, major field of study, periods and dates of attendance, previous school attended, diplomas and honors, participation in activities and sports, awards, weight and height of athletic team members, yearbook and newspaper pictures.
2. The school district maintains permanent and temporary educational records relating to students. Permanent records are kept for 60 years. Temporary records are destroyed after a designated period of time. Destruction of regular education records occurs five years after graduation. Special education records are destroyed five years after termination of special education services. These records consist generally of the following types of information:

PERMANENT

- a. Directory Information
- b. Academic Transcript
- c. Graduation Status
- d. Transfer Information
- e. Ninth Grade Physical
Nurse's Health Record
Doctor's Notes
Pertaining to Accidents
- f. Attendance

TEMPORARY

- a. I.Q. and Achievement Test Data
- b. Psychological Data –Family/Social History
- c. Disciplinary Records
- d. Counseling Records
- e. Activities and Awards

3. Each parent (if the student is age 18 or older, all rights herein apply to the student and not his parents) has a right of access to the educational records of the institution relating to the particular student for purposes of inspection and review, the rights to obtain copies of those records at a cost per page, the right to a response to reasonable requests for explanations and interpretation of the records, the right to an opportunity for a hearing to challenge the content of the records in order to ensure that the records are not inaccurate, misleading or otherwise in violation of the privacy or other rights of students and to provide an opportunity for the correction or deletion of any such inaccurate, misleading or otherwise inappropriate data contained therein and to insert a written explanation concerning the contents of such records. This right of access and right to a hearing applies to former students as well as those now in attendance.

4. Upon request for a hearing concerning the contents of the student's educational records, the principal shall arrange an informal meeting with the parent. If the informal meeting does not resolve the parent's concern, a written request for a due process hearing may be submitted to the Superintendent of District 228. A hearing officer shall be appointed and the parent shall be afforded a full and fair opportunity to present evidence concerning the records. The decision shall be rendered in writing within ten (10) days after the conclusion of the hearing.
5. Parents and eligible students also have the right to file an appeal with the Regional Superintendent of Schools. Copies of the act and regulations issued there under are available for inspection in the main office of each school in District 228.
6. In addition, teachers, supervisors, administrators, and members of the Board of Education having an educationally oriented need, generally have access to such records for the purpose of furthering legitimate educational interests.

If you have any questions, please call the appropriate school and ask for the PPS office. Nondisclosure forms are available from PPS.

INSTRUCTIONAL MATERIALS REVIEW

Parents or guardians of any student may inspect any instructional materials used in the schools. Those materials include textbooks, teacher's manuals, videos, and audiobooks. Parents may call the principal's office for an appointment to view the materials.

SUMMER SCHOOL/CREDIT RECOVERY

District 228 operates both a summer school and a credit recovery program to give students an opportunity to earn credits towards graduation. For eligibility, regulations and procedures refer to the District 228 Curriculum Handbook.

COLLEGE ADMISSION REQUIREMENTS

Among American colleges, there are great variations in admissions requirements and in the academic demand made on students. Published information about these variations is readily available in the counselors' offices. The counselors are prepared to discuss these differences with students and parents.

The principle factors about a candidate considered by college admissions officers are the following:

1. High school grades because they are used to compute grade point average and class rank, both of which are extremely important predictors of post-secondary success.
2. Test results, administered by the American College Testing (ACT) Program and the College Entrance Examination Board (SAT).
3. Personal factors, such as motivation, enthusiasm for learning, social adjustment, emotional maturity, sense of integrity and responsibility, special aptitudes and skills, achievement and leadership (not mere membership) in school and community activities, attendance record, work experience, and accurate self-assessment of aptitudes and abilities.
4. Subjects studied in high school.
5. College academic eligibility requirements for students who wish to continue athletic participation after high school are strictly enforced by the NCAA.

CAREER EXPLORATION

Through the **Developmental Guidance Program**, district counselors provide students with a four-year guidance curriculum, which addresses the personal/social, academic and career domains of development. Students develop their career decision-making skills through self-knowledge, educational and occupational exploration, and career planning. Activities include identification of work values, interests and abilities. Students receive course selection information and learn how to connect their career choices to **Programs of Study**. In addition, based on their **Career Exploration** results, students are asked to research their top career interests in the College & Career Center or the Guidance Office.

COLLEGE ENTRANCE TESTS

Students can obtain information and/or registration materials for the PSAT, SAT and ACT in the PPS. office. Questions should be directed to the counselor.

COLLEGE/CAREER FAIR

District 228's individual schools host College/Career Fairs and have college representatives come in on select days to meet with students (registration is required) each year. Please check your school's website for dates, times and locations.

LIBRARY

The library plays an important part in the school's instructional program. It provides books magazines, newspapers and audiovisual materials. The library offers computers for student use, as well as instruction and assistance with the district's databases, electronic catalog, and 1:1 Device program. The library adheres to the District Internet Use Policy as outlined in this handbook. During freshman orientation, library services, policies and regulations are explained.

The library is available for student use before and after school. Students may use the library during their lunch period, as well as study hall, FLC, and ALC if they are following all current library policies.

Students must use their own ID cards and are responsible for all materials checked out to their student ID numbers.

Magazines may be checked out for one week. Books may be checked out for two weeks and may be renewed. Students with overdue materials or outstanding fines may be denied the right to check out materials until the previous obligations are resolved. The cost for lost materials is assessed at current replacement value.

THE HEALTH PROGRAM

The health program includes the following: (1) healthful school living conditions, (2) appropriate health education integrated with academic courses, (3) healthful physical education, and (4) school health services which stress the prevention of illness and care of injury. The following services are provided:

1. **PERSONAL HEALTH CONFERENCES** are held with individual students at the student's request, teacher's request, or as the nurse deems necessary.
2. **SCREENING FOR VISION AND HEARING** are done annually for transfer students, special education students, and teacher or student self-referrals. The parent/guardian of students who do not pass the screening will be notified by mail. Vision screening is not a substitute for a complete eye and vision evaluation by an eye doctor. In lieu of the vision screening done at school, a completed and signed report by an optometrist or ophthalmologist stating an exam has been administered within the previous 12 months is acceptable.
3. **STANDARD FIRST AID** is available to those students who become ill or are injured while at school. However, first aid is immediate and temporary care. Care beyond first aid must be provided by the parents or the family physician.

HEALTH EXAMINATIONS AND IMMUNIZATIONS

A student's parent(s)/guardian(s) shall present proof that the student received a health examination and the immunizations against, and screenings for, preventable communicable diseases, as required by the Department of Public Health, within one year prior to:

1. Entering the ninth grade; and
2. Enrolling in an Illinois school, regardless of the student's grade (including nursery school, special education, head-start programs operated by elementary or secondary schools, and students transferring into Illinois from out-of-state or out-of-country).

As required by State law:

1. The required health examinations must be performed by a physician licensed to practice medicine in all of its branches, an advanced practice nurse who has a written collaborative agreement with a collaborating physician authorizing the advanced practice nurse to perform health examinations, or a physician assistant who has been delegated the performance of health examinations by a supervising physician.
2. A diabetes screening must be included as a required part of each health examination; diabetes testing is not required.

Unless the student is homeless, failure to comply with the above requirements by October 15 of the current school year will result in the student's exclusion from school until the required health forms are presented to the district. All health information must be recorded on the Certificate of Child Health Examination form. No other form is acceptable. Students needing the proper forms may pick them up in the nurse's office. New students who register mid-term shall have 30 days following registration to comply with the health examination and immunization regulations. If a medical reason prevents a student from receiving a required immunization by October 15, the student must present, by October 15, an immunization schedule and a statement of the medical reasons causing the delay. The schedule and statement of medical reasons must be signed by the physician, advanced practice nurse, physician assistant, or local health department responsible for administering the immunizations. Any homeless child shall be immediately admitted, even if the child or child's parent/guardian is unable to produce immunization and health records normally required for enrollment.

ACCIDENTS/ILLNESS

If a student is involved in an accident or injury, it must be reported immediately to the teacher in charge and to the nurse. Students who become ill at school should secure a pass from a teacher to go to the nurse's office. When a student is too ill to remain in classes, the nurse will contact the home. No student will be sent home if the family cannot be contacted. If the student needs immediate medical attention, a local ambulance will be used for transporting the student to the hospital. The parents shall assume the cost of ambulance if free community ambulance service is not available.

DEFIBRILLATORS

Each school has access to an automated external defibrillator to be utilized if needed, in an emergency situation that might occur during the school day or at a school-related activity. School personnel have been trained in the use of the defibrillator unit, and procedures outlined by the Illinois Department of Public Health will be followed.

MEDICATION

The school health program is designed to promote a safe and healthy environment in which students can experience personal and academic growth. However, diagnosis and prescribing drugs is not the focus of a school and should not be practiced by any school personnel. Therefore, the school will not provide students with any medications.

Any prescription or over the counter (OTC) medication that a student requires during school hours must be provided by the parent and must be prescribed by a physician. A Medication Authorization form must be signed by the parent/guardian and the physician before any prescription or OTC medication will be dispensed. Medication must be brought to the school office by the parent/guardian of the student, together with the signed Medication Authorization form. Students needing the Medication Authorization form may pick it up in the nurse's office.

Medication will be kept under lock and key in the nurse's office and given to the student by the certified school nurse or other designated personnel. After the medication is dispensed, this will be so indicated on a medication record and kept on file in the student's health file.

The parent/guardian will be responsible at the end of the treatment regime for removing from the school any unused medication which was prescribed for their child. If the parent/guardian does not pick up the medication by the end of the school year, it will be properly disposed of. No medications will be kept over the summer.

ASTHMA

Students may self-administer asthma medication in school only if they have an agreement authorizing self-medication for asthma on file at their school. This district agreement form is signed by a parent or guardian and authorizes the student to self-administer while at school or attending school-related activities. A doctor's authorization must also be included with the authorization form. The form also indicates that the parent/guardian understands that the school district and school personnel incur no liability as a result of any injury arising from the self-administration of asthma medication by the student.

The school nurse will conduct conferences with those students who have been identified as having asthma. Parents will also be asked to complete, sign and return to the school nurse an Asthma Action Plan form. Inhalers used by students must be labeled with the student's name. For increased safety reasons, the district recommends an additional inhaler be kept in the nurse's office. Questions regarding these procedures should be directed to the nurse at your school.

CHRONIC OR PROLONGED HEALTH PROBLEMS

Parents should discuss special student health problems with the school nurse. When necessary for the protection of a student, the nurse will inform the teachers of health problems. Student health problems will otherwise be considered private information. After any hospitalization and before the student attends any class, a licensed physician must provide a written medical release to the nurse stating that the student's return to school does not jeopardize his own health/well-being nor that of other students. Physicians' notes which cause any adjustment/limitation in a student's physical education program must be renewed every year before registration or before the limited activity begins in their P.E. class.

COMMUNICABLE DISEASES

If a student has a communicable disease, he is required to return to school with a re-entry permit from a physician. No student will be permitted to remain in school with a rash or a suspected communicable disease. The student will be sent home, and will be readmitted only with a physician's permission.

The Bremen High School District 228 Board of Education recognizes the importance of maintaining a school environment which is free from communicable diseases. It also recognizes that a student with a communicable disease is eligible for all rights, privileges, and services provided by law and the district's policies.

HARASSMENT REVIEW PROCEDURE

Students may request a review and consideration of any alleged unjust or improper practice or of harassment on the part of the Board of Education, its employees, or other students.

Efforts to resolve complaints shall be made in a timely manner and in accordance with the following principles:

1. Every attempt is to be made to resolve the matter at the point of origin.
2. If resolution is not forthcoming at the point of origin, the matter may be appealed by the student to the principal of the building concerned.
3. If the matter is yet unresolved, a written appeal (outlining the nature of the situation, steps taken to resolve it, and the outcome of these efforts) may be submitted by the student to the superintendent.
4. If the situation is yet unresolved, the student may submit a written appeal and related correspondence/records to the Board of Education.

The rights to confidentiality, both of the complainant and the accused, will be respected consistent with the school district's legal obligations and with the necessity to investigate allegations of misconduct and to take corrective action when this conduct has occurred.

ATTENDANCE PROCEDURES

All students are expected to attend each class and to be on time. Absenteeism is a prominent cause of failure and dropout. Success in school depends on regular attendance and punctuality.

REPORTING AN ABSENCE

Parents or legal guardians are required to call on or before the day of the absence. It is ok to call within 24 hours of the absence and you can leave the information in Spanish. Calls are received by the attendance office during the normal school hours, messages may be left on the attendance voicemail during any hours. To insure accuracy, please provide the following information: **STUDENT'S NAME AND ID NUMBER, DATE OR DATES OF ABSENCE, REASON FOR THE ABSENCE AND CALLER'S RELATION TO THE STUDENT.** **When dialing the attendance office, please dial the direct dial phone number: BREMEN (708) 396-8109, HILLCREST (708) 647-4809, OAK FOREST (708) 342-8308 AND TINLEY PARK (708) 342-8209.** Parents may call after school to report an absence. The call will be recorded. **ABSENCES WILL BE UNEXCUSED IF A CALL IS NOT RECEIVED ON OR BEFORE THE DAY OF THE ABSENCE.**

EXCUSED ABSENCES

The School Code of Illinois identifies student illness or death in the immediate family as "valid cause" for absences. In addition, District 228 will approve prearranged absences such as religious holidays, court appearances, medical or dental appointments. A planned absence or early dismissal may be granted for other reasons deemed appropriate by the principal or his designee. Students are required to be in school their entire day in order to participate in after school activities, practices and contests. This requirement applies to Friday attendance for Saturday participation. **A minimum of six periods** constitutes a full day of attendance, per the Illinois School Code.

Medical documentation will be required to excuse extended absences such as:

1. More than three (3) consecutive days
2. When more than eight (8) days per semester are missed

In extenuating circumstances related to attendance, please contact the school principal or designee as soon as possible.

PLANNED ABSENCES

Prearranged absences for the following reasons will be excused only if students comply with special procedures outlined below.

Reasons for planned absence:

1. College visitation (maximum of two visits per year only for junior and seniors, before April 1, exclusive of NCAA recruiting).
2. Job Interview (maximum of two).
3. Religious conferences.
4. Out-of-town trip with parents or guardians.

Extended absences for reasons other than illness are discouraged. The official school calendar is available prior to the school year. Family vacations that are not planned to coincide with scheduled school breaks adversely affect student learning and grades.

Requests for planned absences involving more than seven school days will be denied. The administration may also refuse to grant planned absences to students on attendance probation.

Procedures for planned absence:

1. Bring a written parent/guardian request to the attendance office within a minimum of three (3) days in advance of the planned absence. The attendance office will provide the student with an application form. Teachers' signatures and statements regarding class standing and the effect of the proposed absence will be acquired by the student.
2. Return the form to parent/guardian for review and verification by signatures. These student and parent signatures indicate their responsibility for grades and make-up work.
3. The student must file the completed application in the attendance office in advance of the planned absence.
4. The student must obtain assignments from his teachers. All work must be completed and handed in upon the student's return to school.
5. The student will have one week from the day of return to make up tests.
6. Attendance at conferences, interviews, and colleges must be verified on the appropriate form. The absence should be pre-approved and the form can be obtained from the Student Services office.
7. Students who do not follow the above procedures will be unexcused and will not receive credit.

Any absences from individual classes for reasons other than those described above will be unexcused.

TRUANCY

Truancy is an unexcused absence which is subject to disciplinary action and is reported to the local police if the student is *under 17* years of age. Repeated truancy may result in court action, fines, suspension, and/or removal from class.

District 228 Board policy states:

Students who are truant will be disciplined according to the District Disciplinary Code. District 228 does not recognize any "skip days" as legal holidays. Students who are truant from school on a so-called "skip day" will be subject to disciplinary action. Additional documentation as to the nature of the absence may be required on so-called "skip days."

EXCESSIVE ABSENCES

Excessive absences may result in removal from classes with failing grades and/or suspension from school.

District 228 Board Policy States:

Students who establish a pattern of chronic absenteeism, though such absences may not necessarily fall on consecutive days, may be dropped from one or more courses.

LATE ENTRY

It is very important that all students begin their classes on the first day of school. Students who are under 17 years of age and who attempt to register in school ten (10) or more school days after the beginning of a semester must

1. Arrange a parent conference with the appropriate administrator.
2. Provide proof of residence.
3. Submit a written statement giving valid cause for the late entry.

Students, other than transfers from another district, who are 16 years of age or older must display responsibility and concern for obtaining an education by full-time attendance. Late entry has an adverse effect on academic progress and will not be accepted for students who are 17 years of age or older.

EARLY DISMISSAL

Students may not leave campus during the school day without authorization from the attendance office. Failure to procure such authorization will be considered a cut and will be treated as an unexcused absence.

Early dismissals will be granted only in an emergency or for a medical appointment. An early dismissal from school requires a phone call from a parent or legal guardian prior to the time of dismissal (notes are not accepted). If the dismissal occurs during a class period, the student must stop in the attendance office before school or between classes to secure a slip which will dismiss him at the proper time when presented to his teacher. In the case of an emergency, a student will be summoned by the attendance office after parent contact has been made. **ALL STUDENTS MUST OBTAIN AN EARLY DISMISSAL SLIP IN THE ATTENDANCE OFFICE BEFORE LEAVING SCHOOL. FAILURE TO DO SO WILL RESULT IN AN UNEXCUSED ABSENCE AND DISCIPLINARY ACTION.** A doctor or dentist note is required upon return to the school before an absence will be excused.

When an accident or illness occurs during the school day, students are to report it to the school nurse who will contact a parent/guardian and arrange dismissal if it is deemed necessary.

MAKE-UP WORK

For the general school population, two (2) school days for each day of excused absence will be allowed for the completion of make-up work. It is the student's responsibility to request and complete all tests and assignments within the allotted time. Make-up work for planned absences and Model Disciplinary Program (MDP) is due upon the student's return to class. Parents or guardians of any student who is absent due to hospitalization or extended illness should inform the attendance office and contact the student's counselor. A 48 hour notice is required to obtain make-up work.

Students who are absent unexcused should make up all work. Students who are absent unexcused from a final exam should make up the final exam.

Students do not receive credit for work completed while incarcerated unless a court order, verifying that the student attended a certified school, is received from a judge presiding over the case.

TARDINESS

Tardy Unexcused – Tardiness - All students are expected to come to school on time and to be in their classroom or teacher designated location when the tardy bell rings. This rule applies to morning arrival and also to each class during the day. Excuses such as car problems, oversleeping, missing one's bus, and personal reasons are unexcused tardies. All tardies will be subject to disciplinary action. Any unexcused tardy over 20 minutes will be considered an unexcused absence for the first class of attendance. Any unexcused tardy over ten minutes for any class after the first class of attendance will be considered an unexcused absence. Referrals for tardiness will be issued by the classroom teacher. For excessive tardiness the student may be dropped with a loss of credit from that class and placed in a study hall. ***Tardies are cumulative at the end of each semester.***

SCHOOL RULES AND DISCIPLINE GUIDELINES

All disciplinary actions shall be directed toward protecting the welfare of the school community, as well as helping the student develop self-discipline. When determining the response for a specific breach of discipline, school personnel will consider the nature of the act, the student's previous school history, his/her age and maturation, any mitigating circumstances, and the effect of his/her actions on the welfare of the school community. Disciplinary responses may include but are not limited to the violations listed in this section, nor do they cover every possible incident.

RIGHTS OF STUDENTS

A student may not be deprived of rights without due process of law. Due process guarantees that the accused person has a chance to present a defense, to explain the circumstances of the alleged improper actions, or to attempt to prove innocence. Prior to the imposition of a suspension, the following procedures shall be observed:

1. The suspending school official shall give the student oral or written notice of the charges and evidence to support the charges.
2. If the student denies the charges, an opportunity shall be given the student to present an explanation in a conference with the suspending school official, who shall then inform the student whether or not the suspension is to be imposed.
3. If a parent/guardian has any academic or discipline concerns, please contact the Assistant Principal for Student Services in the PPS Office.

District 228 does not permit corporal punishment. However, faculty and staff may use reasonable force as needed to maintain safety for others and remove a student from the classroom/instructional area for disruptive behavior. Students whose presence poses a continuing danger to persons or property or an ongoing threat of disrupting the academic process may be immediately removed from school. In such cases, the requirements of notice and hearing shall follow as soon as practicable. School officials will employ detection devices, techniques, and strategies pertaining to weapons and drugs as necessary to ensure a safe, protective environment for students and visitors to district schools. These devices may be employed as needed anywhere on the school campus when appropriate, as determined by school officials.

RESPONSIBILITIES OF STUDENTS

Students, as citizens of the United States, are guaranteed certain individual rights and have corresponding individual responsibilities. Parents, teachers and administrators have a duty to protect the rights of students while maintaining an educational atmosphere conducive to the teaching and learning process. The concept of balancing the rights of the individual with the rights of society is as valid in the educational community as in the larger community. There are certain special responsibilities required of a citizen who is a student in school:

1. To become informed of and adhere to reasonable rules and regulations established by the Board of Education and implemented by school administrators and teachers.
2. To respect the rights and individuality of other students and school personnel.
3. To refrain from libel, slanderous remarks, and obscenity in verbal, nonverbal, and written expression.

4. To dress and groom in a manner that meets reasonable standards of health, cleanliness, safety and appropriateness to the social setting, time and place.
5. To be punctual and present in the regular or assigned school program to the best of one's ability.
6. To refrain from gross disobedience or misconduct or behavior that materially and substantially disrupts the educational process or jeopardizes the safety of others.
7. To maintain the best possible level of academic achievement.
8. To respect the reasonable exercise of authority by school administrators and teachers in maintaining discipline in the school and at school sponsored activities.
9. To preserve school property, exercise care while using school facilities and help maintain and improve the school environment.
10. To accept the consequences of any encroachment upon the rights of others.

To assist in achieving an optimum educational climate, the district has adopted a Code of Conduct to be promoted at each school by students and staff. The principles of the code encourage students and staff to maintain a safe, secure, and clean school; to give their personal best to relationships, academics, activities, and athletics; and to treat each other with dignity and respect.

MAJOR VIOLATIONS

Gross disobedience or misconduct at any school activity, school sponsored function, or on a school bus or at a school bus stop may lead to suspension or expulsion according to section 10-22.6 of the School Code of Illinois. This extends the authority of the school beyond the campus boundaries and the regular school day. ***SUSPENDED OR EXPELLED STUDENTS ARE PROHIBITED FROM PARTICIPATING IN AND/OR ATTENDING SCHOOL ACTIVITIES AND SCHOOL SPONSORED FUNCTIONS.***

The following applies to the use, sale, or transfer of weapons, dangerous objects, controlled substances and all prohibited items. Students are determined to be in possession of a prohibited item when that prohibited item is discovered on a student's person, in a vehicle procured by and used by students to enter the school campus, in a student's locker, or in a student's personal possession while on campus or at a school activity. The school district assumes that a person bringing such prohibited items on to the school campus has the intention to use, sell, or transfer the item(s) in question. The driver and passengers of a student procured vehicle are presumed to have knowledge of the presence of a prohibited item, discovered in that vehicle, if it is reasonable for the individuals to have had access to the item(s) in question.

Student Discipline

All disciplinary actions shall be directed toward protecting the welfare of the school community, as well as helping the student develop self-discipline. When determining the response for a specific breach of discipline, school personnel will consider the nature of the act, the student's previous school history, his/her age and maturation, any mitigating circumstances, and the effect of his/her actions on the welfare of the school community. Conduct for which disciplinary responses may be imposed include but is not limited to the violations or infractions listed in this section. This list does not cover every possible incident. A "gang" as defined in this policy is any group of two or more persons whose purposes include the commission of illegal acts. Incidents of gang activity are cumulative during the student’s career in high school. By this policy, the Board of Education acts to prohibit existence of gangs and gang activities.

No student on or about school property or at any school activity:

PERMISSIBLE USE OF COMPUTERS

POLICY

Bremen District 228 provides technology for student and employee use as a tool to enhance classroom teaching and learning. Access to the computer network and the Internet offers valuable, diverse and unique resources to the students and employees. The appropriate use of technology promotes educational goals by providing resource sharing, innovation and communication. By being connected to the Internet, district students and staff have potential access to electronic mail communication; to information via the World-Wide Web; to various research sources including certain university library catalogs, the Library of Congress, and other research databases. The use of the term "Internet" or "network" in this policy refers to all information accessed through the district's network from the various sources as identified above and any and all information accessed using district means of access. The Internet and the school district's network is part of the District 228 curriculum and is not a public forum for general use. The use of the Internet/network shall be consistent with the district's curriculum, and all use of the district's connection must be in support of education and/or research, and be in furtherance of the School Board's stated objectives. Students and employees shall not load onto the district's network or Internet any District 228 work product (as defined in administrative procedures) without prior approval of the superintendent or his/her designee. Use is a privilege, not a right.

The Board of Education denies any responsibility for any information, including its accuracy or quality, obtained or transmitted through use of the Internet. Further, the Board denies responsibility for any information that may be lost, damaged, altered or unavailable when using the district's network. Employees or students and their parents shall be solely responsible for any unauthorized charges or fees resulting from the employee's or student's access to the Internet. Authorized and acceptable use of the district's network and the Internet shall be governed by administrative procedures developed by the Superintendent of Schools.

PROCEDURE

The Bremen District 228 Community of Learners Electronic Network will bring many resources to our school communities and allow communication on a previously unheard scale. New technologies are shifting the ways that information may be accessed, communicated and transferred. These changes may alter instruction and student learning. Bremen District 228 may offer the educational community access to the World Wide Web and the Internet and e-mail capabilities within their buildings, within the district, or across the Internet. As such, it will be a "place" in which the educational community will pursue learning with the same set of standards for behavior and intellectual effort that define the traditional school roles.

Along with access to computers and people all over the world comes the availability of materials that may not be considered appropriate in the academic setting or workplace. However, on a global network, it is impossible to control all materials. Ultimately, the school staff, parents and guardians of minors are responsible for setting and conveying the standards that should be followed when using media and information sources. It is the policy of Bremen District 228 to monitor and supervise student use of the Internet. District 228 supports and respects each family's right to decide whether or not to allow their child access to information gathered from or transmitted to the Internet or World Wide Web.

The following procedures describe the student individual responsibilities for use of district computers and district means to access the Internet:

GENERAL USE OF DISTRICT COMPUTERS, INTERNET, AND ELECTRONIC MAIL COMMUNICATIONS

EDUCATIONAL PURPOSE

The primary purpose of the Bremen District 228 Community of Learners Electronic Network is educational. Users are responsible for ensuring their activities adhere to generally accepted educational standards.

Use of District computers by students shall be supervised and monitored by District staff and administration. Students are only allowed access to information and data on the Internet which is consistent with the district's educational message and mission. Students are not authorized access to information which is inaccurate, illegal, indecent, obscene, defamatory, likely to result in harassment of another student or staff member, likely to cause material disruption in the schools, or is otherwise inconsistent with the District's educational mission, or to enter or transmit such information. Students who attempt access to or to enter or transmit prohibited information shall receive consequences for any rule violations from the supervising staff member or the dean and may be directed to immediately exit from the prohibited database and/or network. Consequences for violations are listed in this handbook.

PRIVILEGE

The use of the Community of Learners Electronic Network is a privilege and not a right.

Students shall not download software without District authorization. Students shall not load onto the network or Internet, District 228 work product without prior approval from the system administrator or his/her designee. Examples of materials constituting District 228 work product include, but are not limited to: District 228 curriculum, District 228 test or examination materials, Department Guidelines and/or Procedures, Parent/Student Handbook, Personnel Handbook, District 228 publications and brochures, school newspaper, school yearbook, and District 228 policies and administrative regulations/procedures.

Students shall not use the District's computer network or District means of access to the Internet for personal financial or commercial gain.

Electronic mail communication shall be used for educational purposes only. Students shall not be allowed to use the District's electronic mail communication for personal messages, anonymous messages or communication unrelated to the school program. Students shall not use electronic mail communication to create, communicate, repeat or otherwise convey or receive any message or information which is, illegal, indecent, obscene, defamatory, likely to constitute harassment of another student or staff member or any other individual, likely to cause disruption in the schools, or is otherwise inconsistent with the District's curriculum and educational mission.

Students who abuse the privilege by engaging in the conduct prohibited in these procedures may lose the privilege and may be denied access to the network, Internet and/or the District's electronic mail communication.

COPYRIGHT AND OTHER PROPRIETARY MATERIALS

All users shall respect copyright and proprietary interest of any materials accessed through the Community of Learners Electronic Network. Students shall not use the District's computer network for any illegal activities, including, but not limited to, copyright violations and unauthorized access to or unauthorized use of databases.

PRIVACY

The Bremen District 228 Community of Learners Electronic Network will be maintained and managed by the system administrator or his/her designee. This will require the ability and authority to inspect any and all materials transferred by, or stored within, the network by any and all users. Because of this, users will have no reasonable expectation of privacy, with respect to access by the system administrator or his/her designees, to any materials transferred by or stored within the Community of Learners Electronic Network. This inspection can occur at any time and without any cause.

While it is not the intention of the system administrator or his/her designee to use this access in an intrusive manner, it is critical that the authority for such access be reserved in order to prevent any abuse of the Community of Learners Electronic Network and to allow the network to recover from disaster.

Students and personnel shall not load onto the network or Internet any student work, student images or any personally identifiable information about students without prior approval from the system administrator or his/her designee and prior written parental consent (when required by applicable state or federal law).

As a condition of being allowed access to the Internet and the district's electronic mail communication through use of district computers, students shall consent to monitoring and inspection by school staff and administration of all student use of district computers including any and all electronic mail communications made or attempted to be made or received by students and all materials accessed or downloaded by students.

Students shall respect the privacy rights of others and shall not attempt to access any electronic mail communications not directed to them or intended to be received by them.

RESPONSIBILITIES

Responsible use of the Community of Learners Electronic Network requires that users not (1) interfere with the normal and proper operation of this network or the Internet, (2) adversely affect the ability of others to use network equipment or services, and (3) conduct themselves in ways that are harmful or deliberately offensive to others.

Improper or prohibited use of district computers or district means of access to the Internet, or electronic mail communication will result in disciplinary measures being imposed. Criminal conduct will be referred to law enforcement authorities.

All users shall assume full liability, legal, financial or otherwise, for their actions. No individual shall become a user of the Bremen District 228 Community of Learners Electronic Network without completing and signing the Agreement Regarding Permissible Use of District Computers - Students.

 - b. Loss of technology access.
3. Working outside the content area or accessing prohibited material may result in the following consequences:
 - a. Teacher warning and/or detention.
 - b. Parent conference.
 - c. Referral to dean.
 - d. Loss of technology access.

ACADEMIC ETHICS

ACADEMIC HONESTY

The administration and faculty expect students to use genuine, sincere and fair methods to complete tests and academic tasks or projects from which evaluations regarding academic progress and grades are determined. An atmosphere which actively fosters academic honesty requires the active support of parents, students, and staff. It is, therefore, the responsibility of each individual to promote academic honesty.

ACADEMIC DISHONESTY

Students who seek to present the work or ideas of others as their own or use unfair methods to improve their grades will be judged guilty of academic dishonesty. Incidents of academic dishonesty are cumulative during a student's career in high school. Consequences for incidents of academic dishonesty will be determined on the basis of the student's cumulative record. Listed below are additional examples of academic dishonesty:

1. Plagiarism - submitting another person's writing as one's own.
2. Obtaining or illegally accepting a copy of a test or test key.
3. Giving or receiving test questions or answers to/from other students.
4. Copying from another student's test or knowingly permitting another student to copy during a test.
5. Using materials or means which are not permitted during a test.

6. Copying-having someone other than the student prepare the student's homework, paper, project, report or take home exam for which credit is given.
7. Permitting another student to copy one's work or ideas.
8. Tampering of grades.
9. Engaging in any action intended to obtain credit for work not one's own.
10. Impersonating another student to assist him academically.

CONSEQUENCES OF ACADEMIC DISHONESTY

Academic dishonesty will be handled by the classroom teacher in coordination with the administration.

STUDENT ID CARD

Every student must carry a current identification card at all times. The ID card must be presented to board a bus, check out a library book, and admit students to co-curricular activities or as necessary and required by individual schools. Any staff member or authorized representative of the school may request to see a student's identification at any time. If a student does not have an ID card or refuses to show it to an authorized person, the student is subject to disciplinary action including suspension. The ID card is not transferable to another person. Loaning an ID is a violation. The loss of an ID card must be reported immediately to the main office. A replacement will be issued for a fee of \$5.00.

BUS TRANSPORTATION AND CONDUCT

Each student is assigned to a bus route. The bus route number and/or stop number are recorded on the ID card. A student may ride only on the bus to which he is assigned. Students are required to show a valid school ID to the bus driver each time a bus is boarded. Bus inquiries or complaints should be directed to the attendance office.

Late buses leave one hour after the last period dismissal. These buses serve students who remain after school for activities or are retained by teachers. Temporary bus passes will be required for any student riding the activity bus.

Students are expected to be at their bus stop on time. Buses will not wait for tardy students. Students are expected to exhibit good citizenship at a bus stop and not to disturb the neighborhood. Regular school rules are in effect on school buses and at bus stops. Students are reminded that engaging in any of the following behavior on a bus will result in suspension from school, suspension of bus service, or both:

1. Smoking.
2. Fighting.
3. Refusal to show ID card to a driver.
4. Failure to cooperate with a driver.
5. Damage to property.
6. Use of the emergency door in a nonemergency situation.
7. Throwing objects in the bus or through a window.
8. Riding an unauthorized bus, or riding a bus while suspended from school.

It is our main concern to transport students to and from school safely. Disruptive student behavior distracts the driver's concentration and poses a threat to the safety of everyone on the bus. All students are to be seated and remain seated while the bus is in route. Any student who causes a disturbance or exhibits poor conduct on the bus will be denied bus transportation. If the conduct on a homebound bus endangers the well-being of any student or the driver, the driver may return to school immediately without dismissing any students. No student is to leave the bus unless dismissed by the driver or a school official. Students are expected to assist the driver in identifying those involved in any misconduct and to exhibit courteous behavior toward bus drivers.

CLASSROOM BEHAVIOR

Students are expected to bring books and required materials, report to their assigned seat, be attentive, respect the rights of others, and observe other guidelines set by individual teachers. Throwing objects, disturbing the class, horseplay, and other minor infractions will be corrected by the classroom teacher, including the assignment of detentions when necessary. Repeated infractions and more serious violations will be referred to the dean and may result in suspension.

CAFETERIA

It is the responsibility of every student to return his tray to the proper location and deposit all waste paper in the trash receptacles. The table and floor around the student should be left in a clean condition for the next group. Monitors will assume that litter left near a student's place is that student's responsibility and will expect his cooperation in the clean-up process. Any student referred

for throwing food, littering, or misconduct will be subject to disciplinary action. Eating food and drinking beverages outside the cafeteria is prohibited. Food taken out of the cafeteria may be confiscated from the student.

CORRIDORS

Students are requested to show concern for safety and for all educational activities in progress. Running, loitering, creating excessive noise, horseplay, blocking traffic, littering, kissing and hugging are unacceptable behavior in the hallways. With few exceptions, students are expected to be in classes at all times. All students in the corridors after the passing period must have an authorized pass. Students, including student aides, in the halls without authorized passes during class periods will be referred to the dean. It is the student's responsibility to obtain an authorized hall pass.

ASSEMBLIES

All rules pertaining to student conduct apply. Students must remain seated except when participation is warranted and must refrain from throwing objects and pushing other students. Courtesy and attention to all speakers and performers are expected.

STUDY HALLS

Standards of classroom behavior apply to study hall conduct. The profitable use of study time will be monitored closely. Students must bring appropriate study materials with them. Talking, sleeping and playing games or electronic devices will not be allowed. Passes to the IMC will be issued according to established IMC procedures. No other passes will be issued, except in an emergency.

FIELD TRIPS

All school rules and discipline guidelines apply to school sponsored field trips. Students who leave campus to attend a field trip must obtain parent permission and submit the authorized form to the sponsoring teacher. Students may be excluded from field trips at the discretion of the assistant principal. Field trips are not out of school absences. Students are required to get assigned homework and turn in homework before leaving for the field trip. It is the student's responsibility to arrange, prior to the field trip, to make up any test or quizzes missed.

DRIVING AND PARKING

All vehicles entering a District 228 campus are expected to abide by all traffic signs and parking designations. Bicycles must be parked and properly secured in the racks provided. A current parking sticker must be displayed in the prescribed place on all motor vehicles. Students who park in the school parking lot who do not have a parking sticker may be ticketed. Student cars must be parked in designated student parking areas. Parking decals will be distributed on a priority basis to students who demonstrate the need to drive to school. Students may apply for a parking sticker in the attendance office and must produce proof of a valid driver's license and auto insurance. A fee of \$70.00 per year will be charged for parking. Students who obtain a sticker after second semester begins will pay \$35.00. **NO REFUNDS WILL BE GIVEN FOR EARLY GRADUATES.**

District 228 assumes no responsibility for vehicles while they are parked on any campus. Students are not allowed to go to their cars during the school day without permission. Loitering, playing loud music, and excessive muffler noise are prohibited in the parking lot. Laws on reckless or negligent driving are enforceable on private property. Speeding, tire squealing, and driving on the grass or sidewalk are examples of poor driving.

Any individual driving or parking a vehicle on school property should be aware that the vehicle and occupants are subject to disciplinary and/or police action, including ticketing, towing, and search. The improper use of cars may also result in the revocation of parking privileges. **NO REFUNDS FOR PARKING STICKERS WILL BE ISSUED.**

Students are discouraged from driving to school, if they do not hold a valid parking permit. Students who choose to park on city or village streets must adhere to all parking regulations.

CO-CURRICULAR ACTIVITIES AND DANCES

Students attending school sponsored co-curricular activities, whether on or off campus, shall be governed by school district rules and regulations and are subject to the authority of school district personnel. Good sportsmanship in words and actions should be demonstrated in all competition by spectators and participants.

Only students currently enrolled on a particular campus will be admitted to school dances on their respective campus. The exception to this rule will be when tickets are sold in advance and a guest list is provided. A student who attends the school where the dance is held must purchase the tickets in advance and place his/her guest's name on the guest list.

Students leaving the building from a dance or other activity will not be readmitted. All students will be required to show their ID cards to supervisory personnel when entering a dance or activity.

DISCIPLINARY CONSEQUENCES

LOSS OF PRIVILEGE

As students advance through high school they may receive certain privileges. Students may forfeit these privileges for not complying with school rules.

COMMUNITY SERVICE

Community service is donated service or activity that is performed by a student in lieu of other disciplinary consequences for the benefit of the school.

DETENTION

A detention is a one hour penalty beyond the regular school day during which the student is required to be present at a designated location within the school. Students are expected to bring materials and work quietly. Detention may be assigned by a dean or other staff member for minor infractions of school rules. A 24 hour notice of any assigned detention should be given to each student so that parents can be notified by the student of the detention. After school employment will not be accepted as an excuse. Students who fail to serve assigned detentions will be assigned more severe punishments for rule violations.

SATURDAY/DEAN'S DAY DETENTIONS

Students will report to their assigned Saturday and/or dean's detention on the designated day, with study materials and will be expected to work quietly for the entire period of time. Students who arrive late, are unprepared, or are dismissed for disruptive behavior will be suspended out-of-school. Students will be responsible for their own transportation to and from detention, and they must leave the building immediately following the detention. Missing detention may result in an out-of-school suspension.

MODEL DISCIPLINARY PROGRAM (MDP)

MDP will be assigned by a dean for violations which merit temporary exclusion from regular classes a maximum of ten times per year. The student is responsible for contacting his teacher **THE DAY BEFORE** and obtaining class work for each teacher to keep him occupied for the entire day. All class work completed in MDP and submitted on the day the student returns to regular classes will be accepted for credit. Once an MDP is assigned, it will not be changed. If a student is not prepared for MDP, reports late, or is removed for disruptive behavior, the student will be suspended at home for the following day and will be subject to further disciplinary action. Students will bring a sack lunch. There are no cafeteria privileges. No one will be allowed to leave during passing periods. Hall passes will NOT be issued.

SUSPENSION

Suspension is the temporary exclusion of a student from school by a principal or his designee for a period not to exceed ten (10) consecutive days. The student will not be able to participate in or attend co-curricular activities during the period of suspension.

Suspension Until Parent Conference (UPC) – In some instances a student may be suspended until a parent conference is held. Out-of-school suspensions are used when a student repeatedly fails to follow school rules or commits a serious act of misconduct. During the period of suspension, the parent and student should work together to resolve the problem. Parents and administrators have the opportunity to review the situation together. Unacceptable behavior has social consequences. Suspension separates a student from friends and social activities at school. It also protects the rights of other students to an education.

Students will be eligible for class work recovery during a suspension. If a student is suspended for more than three (3) days, at the student's request, the counselor will make available to the student the academic work being covered during the suspension.

Parents shall be notified by telephone and mail regarding suspension. The written notice shall include a statement of the reasons for the suspension, the dates and duration of the suspension, and the right to request a review of the suspension. When a student is suspended, the student is not allowed on campus. Violators may be charged with trespassing and can be ticketed accordingly.

PROBATION

Students are placed on disciplinary probation when they have repeatedly displayed disruptive behavior or violated the rights of other students and/or teachers. Truancy or excessive excused absences will result in attendance probation status. Probation will be in force until the end of the school year. Students on probation may be restricted from participating in co-curricular activities, driving to school and other privileges.

EXPULSION

Expulsion is the exclusion of a student from school for a period of time greater than ten (10) consecutive school days, but for no longer than two years. Any offense egregious in nature will be submitted to the district office for administrative review. All expulsions must be ordered by the Board of Education. Incidents of gross disobedience or misconduct involving students shall be referred to the Board of Education for possible expulsion or other disciplinary action in the following, among other instances:

1. Where the presence of a student poses a danger to person or property.
2. Where the presence of a student poses a threat of disruption of the academic process.
3. Where the student has violated any of the regulations concerning sale, purchase, possession, transmittal, use or being under the influence of alcohol or any drug or controlled substance.

Students who withdraw in lieu of expulsion will not participate in school activities. When a student is expelled, the student is not allowed on campus. Violators may be charged with trespassing and can be ticketed accordingly.

ACTIVITIES & ATHLETICS

CO-CURRICULAR ACTIVITIES

It is the belief of District 228 that participation in co-curricular activities offers students lifetime learning experiences and is thus an essential ingredient to the educational process. All activities are governed by District 228 policy. All athletic and academic competition is administered under the guidelines and jurisdiction of the Illinois High School Association (IHSA) and the South Suburban Conference (SSC). Participants in co-curricular activities will be required to abide by the DISTRICT 228 ACTIVITY/ATHLETIC CODE. Co-curricular activities are privileges extended by the district to students who wish to participate and who agree to meet the expectations of the code as well as the rules and regulations established for the respective activity. Meeting expectations, rules, and regulations allows for on-going participation in the particular activity. The failure to meet expectations, rules, or regulations may result in appropriate sanctions.

CLUBS AND ORGANIZATIONS – See Planner Calendar

*Membership in the National Honor Society is based on scholarship, service, leadership and character. Each component is considered essential in the selection process. To be eligible for election to membership, a student must have completed at least three semesters with a minimum 4.4 grade point average.

In addition to academic eligibility, a candidate must complete required background questionnaires and essays which list co-curricular activities and volunteer service. Academic eligibility does not guarantee membership. A faculty committee reviews and evaluates each candidate using the Society's tenets of scholarship, service, leadership, and character. Inductees must meet criteria in each area.

DISTRICT 228 ATHLETIC/ACTIVITY CODE

INTRODUCTION

This code was developed because the administrators, coaches, advisors and staff are interested in the student as a whole person, not just as a competitor or participant in a sport or activity. Promoting healthy behavior now and in the future and the creation of a healthy environment are the district goals. Our philosophy is based on the concept of chemical health and a comprehensive response to chemical use issues and problems.

STATEMENT OF PHILOSOPHY

Bremen High School District 228 and the staffs of Bremen, Hillcrest, Oak Forest and Tinley Park High Schools strongly believe that those students in activities/athletics must conduct themselves as responsible citizens of their school and community. In order to foster such conduct, each school's administration will educate all of its students and enforce the ACTIVITY/ATHLETIC CODE, which will outline guidelines of conduct and behavior for co-curricular participants who serve as recognized representatives of their school.

District 228 high schools recognize that the use of mood-altering chemicals or other controlled substances is a significant health problem for all adolescents, resulting in negative effects upon the behavior, learning, and total social and physical development of each individual.

The close student contact in school-sponsored activities provides faculty and staff with the unique opportunity to observe, to confront, and to assist young people. Therefore, Bremen High School District 228 supports education and awareness training in adolescent chemical use and abuse, including the symptomatology of chemical dependency and the special issues affecting school activities for the administrators, faculty, staff, students and their families.

STATEMENT OF PURPOSE

1. To provide consistency with existing policy of the Bremen High School District 228 schools, to elevate standards of sportsmanship, and to encourage the growth of responsible citizenship among the participating students.
2. To emphasize the schools' concerns for the health of students and their safe participation in activities and in the long term physical and emotional effects of chemical use upon their health.
3. To promote equality and a sense of order and discipline among participating students.
4. To confirm and to support existing state laws which restrict the use of mood-altering chemicals, controlled substances, and/or tobacco.
5. To establish standards of conduct for those students who are role models among their peers.
6. To assist students who desire to resist peer pressure, which directs them toward the use of mood-altering chemicals, other controlled substances, and/or tobacco.
7. To assist students who should be referred for assistance or evaluation regarding their use of mood-altering chemicals, controlled substances, and/or tobacco.

CATEGORIES OF ACTIVITIES

1. All school-sponsored activities for which the Illinois High School Association sponsors interscholastic competition include the following: Athletics, Speech, Group Interpretation, Drama (Contest Play), Band, Chorus, Chess, Journalism (Newspaper and Yearbook), Mathletes, and Scholastic Bowl.
2. School activities which provide a leadership role for student participants such as Student Council Members, NHS Members, Editors, and Officers of any school organization.

CO-CURRICULAR EXPECTATIONS

During a student's four calendar years of high school (including summer), regardless of whether in or out of active participation, a student activity/athletic participant is expected to meet the following:

1. Participants must meet all academic and behavior guidelines and strive for excellence in academics as well as extracurricular activities.
2. Participants are representatives of their school and community. They should conduct themselves in a sportsmanlike and ethical manner and play by the rules at all times: be humble in victory and gracious in defeat.
3. Participants should abide by the decisions of, and show respect toward, game officials, supervisors, advisors, and judges who are
4. charged with administering the contest or activity.
5. Participants are to respect the talent and efforts of peers, opposing participants, players, advisors, and coaches.
6. Participants shall not be involved in any activities involving harassment, hazing, or bullying and shall refrain from any racial, ethnic, or other prejudice.
7. Participants must meet all IHSA requirements.
8. Participants should be on time to, and regularly attend all meetings, practices, and contests: comply with all rules: and accept constructive criticism from supervisors, advisors, and coaches.
9. Participants must not use, be in possession of, use, sell, distribute, and/or be involved with tobacco, alcohol, marijuana, controlled substances or drugs not properly prescribed, or any other intoxicating substance, look alike drug, including steroids. Participants must not attend or host a party at which alcohol, tobacco, or any controlled or other improper substances are provided or at which the use of any such substances is permitted.

VIOLATION DOCUMENTATION

1. Student violation of expectations will be documented by staff and reported to the appropriate administrator (e.g. athletic director/assistant principal).
2. The student committing the violation will be contacted by the appropriate administrator regarding the documented violation.

VOLUNTARY ADMISSION

Voluntary admission or self-reporting of any violations may result in the penalty being reduced by half. Voluntary admission means that the student reports the violation to the administration, sponsor, or coach before information of the violation has been obtained by the school official or if the participant acknowledges the violation immediately upon initial questioning about the violation by the sponsor, coach, or other school official.

Penalties for violation of expectations are cumulative during a student's four calendar years of high school enrollment. A student who violates expectations while he or she is not in his/her co-curricular activity will follow the guidelines that are listed below.

1. The penalty will be applied in the next co-curricular sport/activity in which the student participates.
2. In order for a co-curricular sport/activity to qualify as the next full season, the student must complete that season in good standing. The penalty shall be served as prescribed and the season completed. If the student should fail to complete the season in good standing, the served suspension is void and must be served in the next season in which the student participates.
3. A student who participates in activities and athletics shall serve the designated penalty at the appropriate level in both areas.
4. Athletes must serve the suspension on the level at which they are most frequently competing.
5. Athletes may not compete at any level until a suspension is completed.
